

No. of Functional Features Included in the Solution

Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Team ID	SWTID-2026-7239
Team Lead	Divyadharshini R
Team Members	Hithisri V, Harini A, Manju R, Preethi V

Feature 1 - Personalized Input

Story prompt, character name, setting, tone, and art style.

Feature 2 - Structured Outline Generation

Gemini Flash generates a 5-panel outline.

Feature 3 - Story Generation

Gemini Pro generates narration and character dialogue.

Feature 4 - AI Illustration

Stable Diffusion generates an illustration for each panel.

Feature 5 - Comic Layout

Generated images and story content are organized panel-by-panel.

Feature 6 - Web Preview

comic_preview.html presents the generated comic sequentially.

Feature 7 - PDF Export

The complete comic is compiled into a downloadable PDF using FPDF.

Feature 8 - JSON API Generation

/generate-comic/json supports API-based generation.

Feature 9 - Image Testing

/test-image supports direct testing of image generation.

Feature 10 - Export Confirmation

export_success.html confirms successful comic download and offers a path to create another comic.
