

Problem-Solution Fit

Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Team ID	SWTID-2026-7239
Team Lead	Divyadharshini R
Team Members	Hithisri V, Harini A, Manju R, Preethi V

Target Users

Non-artists, storytellers, hobbyists, students, and casual users interested in creating personalized comics.

Problem

Manual comic creation requires multiple creative and technical skills.

Solution

ComicCraft combines generative AI for story creation and image generation into a single web-based workflow.

Value Proposition

Users can transform a simple prompt and a few preferences into a complete comic with text, illustrations, preview, and PDF export.

Fit

The application directly addresses the effort involved in story outlining, narration, illustration, and final comic formatting.
